

*Your Liver. Your Life.*

# LEARN

Liver Education Audio Resource Network

## Advocacy Information

Our LEARN Audio Conferences offer Medical Professionals the opportunity to sit and learn about various liver disease topics right from their desk! Audio is heard by calling an 800 number and the slides can be pre-downloaded or can be viewed along with the presentation online! Please check out our LEARN website for program topics and information.

One of the great aspects of our LEARN Programs are that the audio is archived and can be downloaded to your PC or Ipod as education on the go.

Below are sponsorship levels for our program. We look forward to working with you! The levels below will give you support for the entire year of programs!

---
